

Important Notice

Please note the following important notice regarding application submission for import and export licences / certificates for pharmaceutical products and dangerous drugs (“IE and DD licences”).

With effect from 31 December 2021, manual application submission for IE and DD licences and applications for import and export licences for registered pharmaceutical products submitted via the Electronic Services will no longer be accepted. Only applications submitted online via the Pharmaceuticals Licence Application and Movement Monitoring System (“PLAMMS”) will be processed.

The relevant importers / exporters and professional organisations have been notified of the above arrangement via letter issued on 4 January 2021.

In order to ensure efficient and timely IE and DD licences application, applicants are reminded to register with PLAMMS if they have not already done so. For information on PLAMMS account registration, account registration form and other PLAMMS useful information, please visit the PLAMMS information section on Drug Office’s website below:
