29 March 2016

Dear Sirs,

**Reminder: Phase out of Manual Application**  
**for Import/Export Licences of Unregistered Pharmaceutical Products**

Further to the our letters issued on 26 June 2015 and 21 December 2015, I am writing to remind your company again that Drug Office (“Drug Office”) will only accept online applications for IE licences for unregistered pharmaceutical products for re-export purpose through our electronic licencing system, namely Pharmaceuticals Licence Application and Movement Monitoring System (“PLAMMS”) **with effect from 1 July 2016.**

Please note that by using PLAMMS, registered users can apply the I/E licences online for their enlisted drug and print the approved licences with their own computers in their work place with the advantages of reducing processing time and gaining logistic conveniences.

We wish to reiterate that after 1 July 2016, manual submission of IE licence applications for unregistered product for re-export purpose will no longer be accepted and the corresponding import/export will be interrupted if you have not used PLAMMS by then. Considering there are only several months from the phasing out of the corresponding manual application, you are strongly reminded to register with the system as soon as possible if you have not yet done so.

To facilitate your understanding of PLAMMS, workshop sessions are conducted by DO twice a week. You can call 2319 8672 for registration for the workshop or any enquiries regarding PLAMMS. Please also visit the website of DO at [www.drugoffice.gov.hk](http://www.drugoffice.gov.hk) for more detailed information of PLAMMS.

Yours faithfully,

(WY CHOW)

for Director of Health
