

Pilot phase for “stop-clock” mechanism for evaluation of applications for registration of New Drug Applications

1. E, Efficacy ; Q, Quality; S, Safety
2. Core Team : Core Team of Expert Group on Drug Registration; Committee : Pharmacy and Poisons (Registration of Pharmaceutical Products and Substances) Committee
3. Target cumulative evaluation time (**150 working days**) excludes the applicant’s response time (limited to **120 calendar days**).
4. Application will be passed to the Committee for decision once the cumulative response time (excluded from the processing time) has reached the maximum of **120 calendar days**.
5. The cumulative processing time does not include the time for inspection and follow-up by the Drug Office GMP inspectorate.
