

## Canada: Unauthorized products may pose serious health risks: Update

Health Canada is advising Canadians about unauthorized health products that may pose serious health risks. The table below is updated when Health Canada finds unauthorized health products that are promoted for sexual enhancement, weight loss, as a workout aid, as “poppers,” or for lightening skin or treating skin conditions (such as eczema or psoriasis). These products are labelled to contain or have been tested and found to contain dangerous ingredients.

The unauthorized product added is:

<b>Product &amp; Promoted Use</b>	<b>Hazard Identified</b>	<b>Company</b>
<b>HERBEREX</b> Sexual enhancement	Product tested by Health Canada and found to contain nortadalafil	Sinvention Boutique 390 Douro St Studio 5 Stratford, ON

Consumers are advised to stop using these products and consult with their health care professional if they have used these products and have health concerns.

Please refer to the following website in Health Canada for details:
